Projects & Experience

Art Gallery Management System

Academic Project | 2024

- Designed a console-based art gallery system applying OOP principles — inheritance, encapsulation, and polymorphism.
- Implemented features to manage artworks, artists, and exhibitions using structured class hierarchies in Java.

Tic-Tac-Toe Game

Academic Project | 2024

- Built an interactive two-player Tic-Tac-Toe game in Python with full game logic, win/draw detection, and input validation.

Event Support Volunteer

University of Central Punjab | 2024 – Present

- Assisted in planning and execution of college-level events, contributing to logistics and on-ground coordination.
- Collaborated with teams to ensure smooth operations, demonstrating communication and teamwork.

Education

BS Software Engineering

University of Central Punjab (UCP) | 2024 – Present

CGPA: 3.65 / 4.00 | Last Semester GPA: 3.83 / 4.00

Relevant Coursework

- Object-Oriented Programming
- Data Structures
- Database Systems
- Programming Fundamentals
- Discrete Mathematics
- Computer Organization

Objective

Motivated SE student seeking an internship to apply academic knowledge, expand practical skills, and contribute to a dynamic team.

Key Skills

Python

Java

SQL / Databases

OOP

Problem Solving

Team Collaboration

Event Coordination
